A Bibliography of Planetary Geology and Geophysics Principal Investigators and Their Associates, 1986-1987

This document is a compilation of selected bibliographic data specifically relating to recent publications submitted by principal investigators and their associates, supported through NASA's Office of Space Science and Applications, Solar System Exploration Division, Planetary Geology and Geophysics Program, and serves as a companion piece to NASA TM-4041, Reports of Planetary Geology and Geophysics Program—1987, NASA, Washington, D.C. 20546.
